Diary. 1875. Dr. Joseph Leidy. Coll. 482 (3)

April 29, 1875. Left for Liverpool. Companions: Wife, Miss Keen of Easton and Miss Smith of Del. Co. Capt. Schackford Commander of Ship Illinois, Mr Emery Purser. Among passengers. Mess. Cresson, Pepper, Schofield, Stoteshury, Crozer, Wiedenheim, Schmfeld & Dr. Roberts of Phila. Williams of Germantown. Mr. Thwaite of Yorkshire, and also Mr. Mc Michael of Phil. Mr Hazl. Pool Box 85, Charleston, Kanawha W. Va (Promised to send Unios, &c.)

Dr. Martin of Baltimore Surgeon to the vessel. Fair passage without adventure. Few animals seen except Mother Carey Chickens, and an occasional Porpoise. In Irish Channel multitudes of two species Gulls, Puffins, &c. Arrived in Liverpool Mond. May 10. Put up at Adelphi. Liverpool Free Museum & Library. Mr Moore, Curator. Well arranged collection in Natural history. Afternoon visited Leicester, and its Cathedral.

Tuesd. May 11 for London by Midland R.R Fare in Pullman Car 34s. arrived 4 P.M. and put up at Midland Hotel at terminus of R.R.

May 12 British Museum. Dr. A. Gunther and Mr Waterhouse.

May 13 Dr. Prof. Owen. Prof. Mastelyne. Mr. Davis assistant to former & Mr Davis jr assistant to latter. May 14. B.M.

May 15 Took lodgings No 7 Gower St. Bill at Midland Hotel for me & wife for four days £6. Calls at Geol. Soc.; Lin. Soc.; Royal Institution, & Col. of Surgeons. Bought two young Elephant skulls for £6. of E. Gerrard jr. 31 College Place, Camden Town, London.

Sunday May 16. Zoological Garden. Two African Elephants, large but without tusks. Three Hippopotami, of which one was born and raised in the Garden. The great Javan salamandra Sieboldii. Fine two-horned Rhinoceros.

Evening called on Prof. W. Flower, 30 Lincolns Inn Fields.

May 17 South Kensington Museum.

May 18 Breakfast with Prof Flower & afterwards visit Museum Royal College Surgeons. Method of mounting skeletons so as to be separable & with flexible wires so as to allow examination of all parts of the articulations. Admirable wet preparations of vertebrates, muscles, vessels, &c cleaned of connective tissue by dissection under weak spirit. Injection of vessels and hollow viscera with plaster colored blue and red.

At British Museum, Mr. Davis showed me pelvis of a huge Dinosaur, recently discovered in the Kimmeridge Clay, to be described by Prof. Owen. Prof. Owen in first visit exhibited portion of same skeleton, and also the skull of Odontopteryx from Sheppey. May 19 Brit. Mus., & Mus. Col. Surgeons.

May 20 Called on Dr. Allman. Do Prof. A. C. Ramsay, at Museum of Practical Geology, Jermyn St. Introduced to Mr. Etheridge. Evening visited Prof. and Mrs Flower; there met Mr. Busk.

May 21. Beck & Co and ordered Microscope. British Museum, called on Mr. Birch. Inspection of ancient jewelry in the Jewel Room. Left lodgings for Midland Hotel.

May 22 British Museum.

" 23 To Richmond, with Mrs. L. to dine with Prof. Owen, in his suburban residence presented by the Queen. Present: the sister Miss Owen, Mrs Rogers, Dr. A. Farre, Mr. Landseer (brother to famous animal painter) and Dr. ? Walk in Park and Prof. O's garden. Pleasant dinner with variety of good wines: Sherry, Sauterne, Ale, Champagne, Port, Madeira.

May 24. Mus. Ed. Inquens. Evening 7, in company with wife, dined, at Royal Institution, with Prof. John Tyndall & Mr. Herbert Spencer. Same place in which Faraday lived for 50 yrs previously and Sir H. Davy before that. Night arrival of Mr. Bennett.

May 25 In company with Mr. B. visit mineral dealers Wrights & Gregory. British Museum.

May 26. Visited Mrs Wright to examine mineral col. of late husband. With ladies visit Tower of London. Afternoon called at Athenaeum Club to which had been elected as a guest. Dined with Prof. Ramsay at Ecological Club, Pall Mall Restaurant. Mr. Evans at head of table. Present Mr Prestwich, Henslow, &c. Attended meeting of Ecological Society 9 o'clock, Mr. Evans presiding. Met Mr. Seeley, Mr. Charlesworth, &c. Afterwards attended reception of the Royal Society, Burlington House. Interesting experiment of Mr. Crookes: radiation of light producing movement of a wheel in vanes. Met Dr. Carpenter, Cobbold, &c.

May 27 Day spent at S. Kensington museum.

" 28 British Museum. Mr. Thaling. Evening with Mr. B. visited Prof. Markelyne, and inspected his cabinet of engraved gems.

May 29 Dined with Mr. E. H. Flower, 35 Hyde Park Garden. Pleasant drive in company with Mr & Mrs H. and Prof. W. Flower, in Hyde & Battersea Parks.

May 30. With our Co. visit to Hampton Court palace & garden.

" 31 British Museum. Evening advent of Mr. R. Sherman & M. Immenille, & with Co. to Tussauds' exhibition.

June 1 B. M. Dined with Prof. Flower, at Zoological Celub, at Cafe' Verrey, Regent St. Present Mr Selater, Sir Victor Brooke, Mr St. Ewge Mivart. Evening meeting of Zoological Society Dr. Günther presiding. Met there Mr. Parker.

June 3 Dined with Prof. Ramsay, besides family Mr. Dallas present.

June 4 Visited Sydenham, its crystal palace, and grounds. Prof. Hawkins restorations.

June 5 With Mr. William Blackmore went to Salisbury, about 80 m. from London, R. R. Express less than 2 hours. Blackmore Museum. Salisbury Cathedral. Dined in Co. with Dr. Blackmore & sister, mother & Mr. Stevens.

June 6. Blackmore Museum. Afternoon with Mrs. B. & Stevens,

pleasant drive on Salisbury plains or chalk downs to Stonehenge. Striking resemblance of the downs to some of our rolling prairies which are likewise treeless, unless planted. The pasture consisted of short grasses, yarrow, daisey, plantain, thyme, polygala, &c. Famous for the South Down sheep.

Mond. June 7 Return to London.

June 8. Visit Kew Gardens. Evening, Mr Bennett & I dine with Prof. Markelyne. Present Prof Rollerton of Oxford, also Mr & Miss Huxley. (Mr. Markelyne showed a desire to have a collection of Hayden's western rocks for the B. Museum. Evening examined Mr. M's fine collection of cut stones.

June 9 Mr. Ludlam, Picadilly, to examine his collection of minerals, Mr. B. in company. Took luncheon with him. Evening grand reception of Mr & Prof. Flower at R. Col. Surgeons. Large number of persons present, in full dress. Exhibited a recent collection of cave fossil bones from Isle Rodriguez, mainly of birds & turtles but also bats. Multitudes of bones of the Solitaire. Fine restored skeleton of do. Curious exostoses on the radius ulna & metacarpals of the male apparently result of fighting.

June 10 Visit to Brighton. Brighton aquarium. Evening dined at Thatched House Club with Mr. St. Geo. Mivart, present Mr ?

Sat. June 19 Visit to Collection of paintings, sculpture, &c at Palais de l'Industrie des Champs Élysées.

June 20. Visit to Palace of Versailles. Company except Miss Smith, & including Mes. Shennen, Sommeville & Lawson. Play of fountains. Fire works in evening in Palace Garden. Dinner at Restaurant de France.

June 21. Visit to Pisani, Mad. Oloffe, mineral dealer.

June 22. Collection of Ecole des Mines. Rich cabinets of Minerals and Fossils.

June 23 Jardin des Plantes. Menagerie, Mineralogical & Palaeontological Collections. The former not equal to that of the Ecole d. Mines. Evening Grand Opera, a gorgeous establishment. Scenic effects of stage best ever seen. Opera Hamlet

June 24 Rained all day. Visited M. Laurent and purchased a few mineral specimens.

June 25. Barnett departed for Strasburg. Visit at Jardin d. plantes to Prof M. Edward, his sons A. M. Edward, & Prof. P. Gervais. Prof. M. Edward 75 years. Collection of fossil birds mostly pertaining to private Cabinet of the son. Prof. Gervais spent long time in exhibiting the palaeontological & osteological collection. Fine series of Cetacean skeletons. Recent acquisition: a Collection from South America, at cost of 50.000 francs, among which an almost perfect skeleton of Megatherium (non mounted) nearly complete skull of another, almost perfect

carapace &c of Elyptodon, &c. Collection of Attica fossils described by M. Gaudry in the Mus. Jardin d. Plantes.

June 26th Musée du Louvre. Magnificent sarcophagus of Ramses III in Red Syenite. (3 statues en bois de l'ancien empire Egyptien, anterieure au trentieme siecle avant l'ere Chretienne. They have caucassian faces.) The collection of Roman antiquities, statues &c. large and fine. The antique fine art collection in general appears to me to exceed that of the British Museum, especially in the Roman & Egyptian series. Egyptian & Phenician sarcophagi.

Sunday June 27. Musée du Louvre. Noticed particularly about a dozen Phenician, white marble, sarcophagi, without inscription. With this collection a remarkable one of black rock, with the head dress in Egyptian style, with inscription on lid, apparently in demotic character (no hieroglyphs), labeled of "Esmunazar, King of Sidon, found at Sayda.

In Egyptian collection observed besides the red syenite sarcophagus above mentioned. Three others complete, including cover, of black syenite:- one of a Priest of the reign of Psametek 1st, XXVI Dyn. second of "Taho Hierogrammate"; third of "Horus."

Large Sphinx of red Syenite. Beautiful alabaster statue, complete, in sitting posture, about 6ft high of Ramses II of the XIX Dyn.

Monday June 28, Called on Dr. Azoux, and Vasseur, Rue d'Ecole de Medicine. Afternoon attended a meeting of

the Academy of Sciences at the French Institute.
Tues. June 29. Wed. June 30. Called on Prof. Gervais at the Jardin des Plantes, and arranged about exchange of models in plaster of vertebrate fossils.
Musee du Louvre; see notes on gems &c. Provinces of decline
Thurs. July 1st. Frid. July 2. Luxemburg Palace Collection of Pictures & Sculpture.
Sat. July 3. Ecole des Mines; see notes on minerals, &c.
Sund. July 4 Hotel de Cluny. Musee du Louvre.
Monday July 5 8.40 P.M. departure from Paris by way of Macon & Dijon to Geneva, by Express arriving next morning 6th at 10.30 A.M. Beautiful scenery after leaving Dijon along valley of the Rhone; views of the Jura; passage through a long tunnel. of the Cotton. Fare from Paris to Geneva Fr. 77. First class, express.

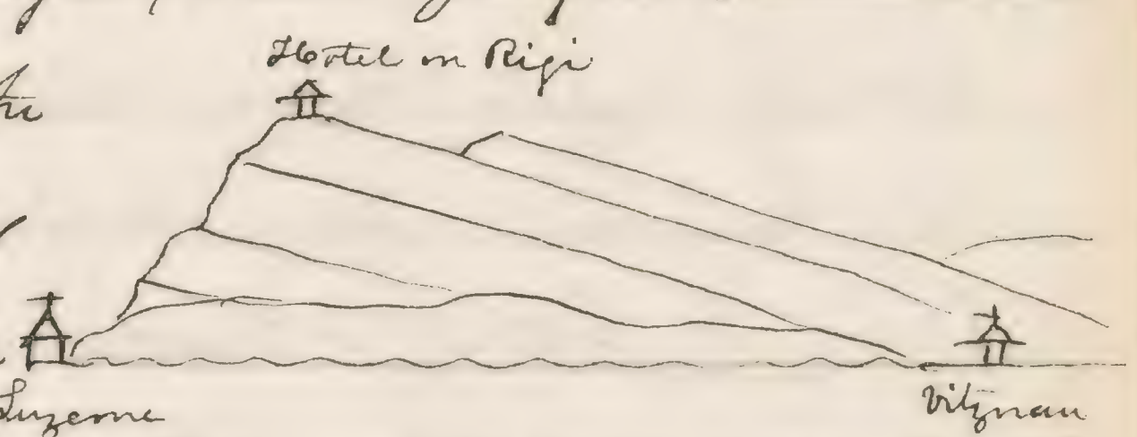
Wed. July 7th Exceedingly hot day. Ramble through the town. Mr. Bement joined us again the day before arriving from Basle, after a mineralogical

expedition in company with Hoseus. Hail storm at night
Thurs. July 8th. Trip in Carriage (for 4 or 5) for Chamonix,
distance of about 50 miles. Effects of hail storm of previous
night noticed on the way to Bonneville about 20 m. distant
from Geneva. Accumulations of hail stones still observed
in hollows, ditches, &c, many of which as large as walnuts.
Terrible destruction of all vegetation, glass windows, tiles, roofs &c.
Rain in afternoon. Stop at St. Martin, Hotel de Mt Blanc.
Beautiful view of Mt Blanc chain from porch of the hotel.
Fri. July 9th Arrive at Chamonix & stop at Hotel Royale.
Walk to see Glacier Bossons. Rain in afternoon.
Sat. July 10. Ascent of Montanvert, pass the Glacier = Mer
de Glace, & descent of the "Chapeau. Beauty of the
Mer de Glace, Materials of the moraines all of one
kind of granite. Cost of Carriage for 4 or 5 for Chamonix Sunday.
Sunday July 11th Departure from Chamonix for Geneva. 175 Fr.
Mond. July 12th Depart for Freiburg, via railway and
put up at the Zahringer Hof. Fine view of the two
suspension bridges from terrace of the Hotel.
Tuesd. July 13th Walk in suburbs of Freiburg. Quaint old houses.
Evening concert in the Cathedral, with the magnificent Organ.
July 14th Railway thro. Lausanne to Berne and put up at
the Berner Hof. Fine view of the Bernese Oberland or

range of the Jungfrau. Tour with ascended homes.
Thurs. July 15th afternoon leave by Railroad, and steamboat on
Lake Thun for Interlaken where arrive in evening and put
up at Hotel Victoria. Fine view of the Jungfrau. Town
vicinity = Swiss wood carving, &c. July 16th, 17th, 18th Inter-
laken, cloudy & raining most of the time so that Jungfrau
completely obscured from view. Monday July 19th Early morning
fine view of the Jungfrau. Departure by carriage (for 5 persons for 60 Fr.
coachman 8 fr) for Luzerne. Pass through fine valley between Lake
Thun & Brienz, the intervening river divided in its course in a
walled canal-like channel. Come over the Brunig Pass, thence
along Sarner Lake & some distance along Lake Lucerne to
Lucerne. Arrive evening and put up at Hotel National,
beautifully situated on the Lake, Fine view of the Mountains,
especially Mt Pilatus, the Rigi, &c. July 20 Steamboat
to Vitznau. A railway from the
latter ascends to the summit of
the Rigi, following the inclined
of the uptilted strata. Rain prevented us from ascending.



July 21st Morning by railway for Zurich (about 2 hours,
fare fr 4.70 each trunk fr 1.15.) Put up at Hotel Bauer au lac,
situated on Lake Zurich. Thurs. July 22 Advent of Hiseus &
visit in company Dr. D. F. Wiser, who has a remarkably rich
collection of Swiss minerals (Octahedral fluors, Sphenes, Rutiles,

Viserine, Anatase, modified Quartzes, Apatites, Brookites, Magnetites, Rose Irons, Hematites, Jordanites, Tinn Blendes, &c) Gran Granates, Corundums, Idocrase, Epidote, &c). Visit the Mineralogical and Palaeontological Collection of the University. Visit collection of antiquities or relics of the ancient Swiss Lake dwellers in building of the town library.

Wed. July 23 Departure for Munich, by rail and steamer to Lindau on Lake Constance & thence rail to Munich. Fare 26¼ francs. Put up at Hotel den Vierjahresgeiten (H. des Quatre Saisons).

Sat. July 24 Visit the immense bronze statue Bavaria! &c.

Sund. July 25 Cathedral, Basilica &c. Ride in Englischen Garten.

Monday. July 26 Glyptothek with its choice collection of Grecian, Roman & Etrn antiquities. Alte Pinacothek with its remarkable collection of Old paintings from the 13th to the 17th centuries. Visit to the Palace.

Tuesday July 27th Visit the National Hunting collections at the old Jesuit College. The Zoological Collections &c. Introd. to Dr. Karl A. Zittel. Palaeontological Collection especially rich in fossils from the Lithographic stone of Solenhofen. Also a fine collection of the fossils from Pikermi, described by Wagner & Gaudry. Among them is a fine restoration of "Hipparion gracile (Rep. in fig. 160 of Zittel's "Aus d. Urzeit"). Also observed a nearly complete & mounted Rhinoceros tichorhinus, with skull entire. Further a nearly complete

brown jaw with tusks & molars of Deinotherium Bavaricum, recently found in a railway cut near Freiberg. A few other bones accompanied the jaw. Examined also the mineralogical collection which is very good, & contains many fine russian minerals from the Duke of Leuchtenbergs collection. Half a dozen good crystals, several very large, of Phenacite, also two medium sized, brilliant-cut specimens. Five Brazilian Alexandrites, Topazes, Tourmalines, Tourmalines, Smaragdine stones, Garnets, Ilmenites &c.

Wed. July 28th Rail for Dresden (fare 40 Marks, in 2d class; travel all day) arrive 10 P.M. and put up at Hotel Bellevue, situated on the Elbe. Met with Mr. Vaux & family. July 29. Visit the Grünen Gewölbes with its vast store of curiosities, &c arranged in the most unsatisfactory manner. Evening attended the Opera, in a temporary building in vicinity of a new, lofty & magnificent stone one. July 30 Friday, Call on mineral dealer Tschain and Serf. Visit the Picture Gallery. Many fine pictures of Correggio, Carracci, Rafael, Van Dyck, Rembrandt, Dolce, Vedder, Titian, Murillo, &c &c. Sufficiently heterodox to prefer a modern one of "the three sisters" by Kiessling" to the whole of them. Evening drive in the environs. Sat. July 31. Trip to Freiberg (18 M. going & return) to the School of Mines. View of the mineralogical collection, which is small but with many fine specimens. Visit to Herr Woller dealer in minerals & occupying a room in the same building.

In the morning visited the Mineralogical & Palaeontological Museum of Dresden. Prof. Geinitz Director, but absent. Among the fossils found a complete, monster, skeleton of Ursus spelaeus. Sunday Aug. 1. Visit the Mineralogical & Zoological collections = see special notes.

Aug. 2 Leave for Berlin by Express (12 M. 20 Pf.) arrive at 2 P.M and put up at Hotel d'Angleterre on Shinkel Platz. Tues. Aug. 3 Visit to mineral dealer Tech. Walk in evening to Brandenburg Thor and new column of Victory. Wed. Aug. 4. Call on Prof. H. Peters living at the University, and with him examine the Museums of Zoology & Comp. Anatomy. Also examine the Palaeontological & Mineralogical Museums. Visit to the Museum. Fine collection of antiquities. In Egyptian department good series of sarcophagi &c. Thurs. Aug. 5th. Visit again the Royal Museum and inspect more carefully the collection of Egyptian & other antiquities. Friday Aug. 6th Take Rail for Hannover and put up at Hotel Royale. Call on Class dealer in Minerals. Ride in evening to Britanic Garden. Sat. Aug. 7th Procuring of people to Market. Depart for Frankfort. Harvest time in the country, arrival at Frankfort in evening and put up at Hotel des Römische Kaiser. Sunday Aug 8 Walk in suburbs. Fine fountain in park. Evening departure for Mayence and put up at Rhein Hof. Pleasant drive

in the evening through the town and its vicinity. Wed. Aug. 9th Rail by way of Brieg to Oberstein. Marks of recent inundation along the valley in vicinity of town of Sion. Visit to the Cutting Mills. Water power employed and stones for cutting fine grained red sandstone. Agate dealers. Visit to the curious old chapel built in a cavity of the rock overlooking Oberstein. Dine at Hof zum Post. Return in evening to Mainz.

Thurs. Aug. 10 Steamboat, at 9 o'clock, on the Rhine to Bonn and arrive at 3½ o'clock. Put up at Hotel Royale on the Rhine, from which have magnificent view of river, Siebengebirge, ~~with~~ Drachenfels, &c. Wed. Aug. 11 Visit to Stürtz & Krantz mineral dealers. Evening pleasant ride to mixed cattle of Godesberg in vicinity of Bonn. Map column much used for economical purposes: posts, steps, &c. Thurs. Aug. 12 Visit the Nat. Hist. Collection including Krantz Col. of minerals in Poppelsdorf Schloss. Depart by Rail. at 12½ o'clock for Bruxelles and arrive at 9½ at night. Put up at Hotel Bellevue. Frid. Aug. 13. Ride through Brussels. Visit to Picture Gallery & to the New Parliament House, the Cathedral, to the Grande Place of the Hotel de Ville &c. Sat. Aug. 14 Express 9 o'clock & arrive at Paris at 5 P. M.
